SUMMARY

Frontend Developer with 6+ years building scalable, high-performance web and mobile applications using React, Next.js, React Native, TypeScript, and Tailwind CSS. Proven track record leading frontend architecture end-to-end, from founding a logistics platform's mobile app, website, and admin dashboard to serving as CTO of a marketplace startup. Skilled in responsive design, RBAC, secure authentication, real-time data, API integration, and AI-powered product features. Adept at collaborating with product, design, and backend teams to deliver intuitive, production-ready interfaces.

SKILLS

Core Technologies: React, Next.js, React Native (Expo), TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS/NativeWind, Redux Toolkit, REST API Integration

Advanced: Performance Optimization, Responsive Design, React Query, Zustand, React Hook Form, Framer Motion, Jest Testing, Role-Based Access Control (RBAC), Secure Authentication & Routing, SEO, Artificial Intelligence, CI/CD

Tools & Monitoring: Sentry (Error Tracking), Firebase/Firestore, Push Notifications (Expo, FCM)

Soft Skills: Technical Leadership, Product Strategy, Problem Solving, Agile Collaboration, Cross-Functional Teamwork

PROFESSIONAL WORK EXPERIENCE

Doos Logistics

Senior Frontend Developer

Mar 2025 – Present

Texas, United States

- Built the Doos Logistics cross-border shipping platform from the ground up, independently developing the Expo/React Native mobile app, Next.js website, and admin dashboard.
- Engineered end-to-end shipment and payment workflows and analytics dashboards for shipment trends, payments, and user activity, using Redux Toolkit, React Query, React Hook Form, and Jest testing.

XpressDrop (Startup)

Chief Technology Officer

Oct 2024 – Present

Lagos, Nigeria

- Lead technical development of a laundry marketplace connecting customers with laundromats; architected scalable web and mobile apps with Next.js, Expo/React Native, and NativeWind.
- Drive product development from architecture through deployment, designing reusable UI systems and Redux Toolkit state management while collaborating with designers and stakeholders.

Saaspro Health

Frontend Developer

Nov 2023 – Sep 2024

United Arab Emirates

- Built responsive web and mobile interfaces for an AI-powered medical scribe platform, improving clinician workflow efficiency by 65% and supporting 100K+ daily transcription requests.
- Implemented real-time AI transcription and AI-driven SOAP note generation, improving documentation accuracy by 25%, plus secure authentication for HIPAA-compliant patient data.

Edstream

Frontend Developer

Jul 2022 – Sep 2023

Kano State, Nigeria

- Developed the frontend for an education platform serving 500+ schools and 50K+ students, implementing RBAC, secure routing, and responsive dashboards for grading, attendance, and reporting.
- Built a payment interface for 5,000+ students monthly with 99.9% transaction success via Flutterwave, and integrated real-time notifications for results, fees, and messages.

ShawSec

Frontend Developer

Apr 2021 – Jul 2022

Abuja, Nigeria

- Engineered production-grade security platforms with React.js, Next.js, and TypeScript; built reusable component systems using React Query and Zustand for state management.
- Leveraged Next.js SSR and API routes to optimize performance, and improved accessibility through lazy loading and code splitting.

Spouse Tech Limited

Mobile Application Developer

Jul 2018 – Feb 2021

Abuja, Nigeria

- Built and shipped Meet Halal Spouse, a React Native mobile app with 10K+ downloads, developing authentication, API integration, navigation, state management, and biometrics.

EDUCATION

Ahmadu Bello University, Bachelor of Science, Computer Science

Jan 2020 – Oct 2024

Ahmadu Bello University, Diploma, Computer Science

Aug 2017 – Nov 2019
